## PROFILE

My strengths lie in adaptability and problem-solving abilities, enabling me to swiftly acquire new technologies. I approach tasks diligently and with a sense of responsibility, maintaining a passion for learning. I strive for seamless communication within teams and dedicate myself to efficient project development. My passion for technology and coding serves as a platform for continuous learning and personal growth, motivating me to pursue greater contributions and excellence.

## WORK EXPERIENCE

**CO2Network:** <https://co2network.green> 2024.05-CURRENT  
Mobile IOS & Web Developer SEOUL, SOUTH KOREA

### Projects:

#### 2. Name: CO2Network IOS App (Carbon footprint Calculator ,etc)

- Main Responsibilities: Front-end
- Role: Responsive UI design, screen functionality structuring ,GraphQL API integration, state management ,Testing and Deploying Process
- Tech Stack: SwiftUI, Swift, TCA, GraphQL, APOLLO, Lottie Animations
- Duration: 2024.05 - 2023.6 (Approx. 2 month)
- Team Size: 4 member
- App Store: [CO2Network IOS](#)

#### 3. Name: Admin iOS App for CO2Network

- Main Responsibilities: Front-end Development
- Role: Responsive UI design, screen functionality structuring, GraphQL API integration, State Management setup and maintaining, App deployment to App store
- Tech Stack: Xcode, SwiftUI, Swift, Swift States, GraphQL, Apollo, Apple Connect, iOS, notification extensions
- Duration: 2024.06 .01- 2023.06.30 (Approx. 1 month)
- Team Size: 2 member
- AppStore: deployed as Unlisted App

Projects:

**1. Name: Jamsilcha Hospital (Hybrid App)**

- Main Responsibilities: Front-end/Back-end Development
- Role: Responsive UI design, screen functionality structuring, API integration, state management setup, RESTful API development, server-side logic implementation for data processing and response
- Tech Stack: React.js, TypeScript, MaterialUI, Redux, Axios, RestAPI, Node.js, MariaDB, Postman
- Duration: 2023.08 - 2024.01 (Approx. 5 months)
- Team Size: 1 member
- URL: Still in progress

**2. Name: Gangnamcha Initial Visit Consultation Survey Web**

- Main Responsibilities: Front-end/Back-end Development
- Role: Responsive UI design, screen functionality structuring, API integration, state management setup, RESTful API development, server-side logic implementation for data processing and response, server deployment
- Tech Stack: ejs, Html, Css, Node.js, Oracle, MySQL
- Duration: 2023.09 - 2023.10 (Approx. 1 month)
- Team Size: 1 member
- URL: <https://gangnamm.chamc.co.kr/survey/gynec?TPATNO=Z12340000>

**3. Name: Patient iOS App for BundangCha Hospital**

- Main Responsibilities: Front-end Development
- Role: Responsive UI design, screen functionality structuring, API integration, state management setup, app deployment, operation
- Tech Stack: Xcode, Storyboard, Swift, RxSwift, Apple Connect, iOS notification extensions
- Duration: 2023.10 - 2023.11 (Approx. 1 month)
- Team Size: 1 member
- AppStore:  
<https://apps.apple.com/kr/app/%EB%B6%84%EB%8B%B9%EC%B0%A8%EB%B3%91%EC%9B%90/id1559162367>

**4. Name: Hospitalization Reservation Service Development for Bundang SNUHospital**

- Main Responsibilities: Front-end/Back-end Development
- Role: Responsive UI design, screen functionality structuring, API integration, state management setup, RESTful API development, server-side logic implementation for data processing and response, server deployment
- Tech Stack: React, TypeScript, Mui, Redux, Axios, Promises, RestAPI, Node.js, MariaDB, Postman, XML, API development
- Duration: November 2023 to December 2023 (Approx. 1 month)
- Team Size: 2 members
- URL : <https://devpac.snuhb.org>

**5. Name: Patient iOS App Development for Yongin Severance Hospital (Additional Development)**

- Main Responsibilities: Front-end Development
- Role: Responsive UI design, screen functionality structuring, API integration, state management setup, app deployment, operation
- Tech Stack: Xcode, Storyboard, Swift, RxSwift, Apple Connect, iOS notification extensions
- Duration: January 2023 to February 2023 (Approx. 2 months)
- Team Size: 1 member
- AppStore:  
<https://apps.apple.com/kr/app/%EC%9A%A9%EC%9D%B8%EC%84%B8%EB%B8%8C%EB%9E%80%EC%8A%A4%EB%B3%91%EC%9B%90/id1505186177>

Projects:

**1. Project Name: Mando Electron Car Charging Station Management System (Web)**

- Main Responsibilities: Front-end Development
- Role: Responsive UI design, screen functionality structuring, API integration, state management setup
- Tech Stack: React.js, Mui, Styled Component, Recoil, React-query, RestApi, Node.js, AWS, etc.
- Duration: 2022.07-2022.11 (Approx. 4 months)
- Team Size: 6 to 7 members
- URL: Project canceled(or private)

**2. Project Name: StoryKorean (Mobile App for Learning Korean)**

- Main Responsibilities: Backend Development
- Role: Development and implementation of quiz generation algorithms, reading dummy quizzes from excel files and storing in the database, implementing functionality to store images in AWS S3 buckets
- Duration: 2022.12-2023.12 (Approx. 3 months)
- Tech Stack: Node.js, JavaScript, Express.js, Rest API, MySQL, AWS(S3), etc.
- Google store URL: <https://play.google.com/store/apps/details?id=com.jocdand.storykoreanapp&hl=en&gl=US>

**3. Project Name: Development of Admin Website for Cafit Car Rental App**

- Main Responsibilities: Front-end Development
- Role: Responsive UI design, screen functionality structuring, API integration, state management setup
- Duration: 2023.02-2023.03 (Approx. 1 month)
- Tech Stack: React.js, Recoil, Storybook, React-query, Styled Components, etc
- URL: <https://starautomobile.net/BUSINESS03> (private)

**4. Project Name: DaouSync and DaouSync Desktop App**

- Main Responsibilities: Front-end Development
- Role: Responsive UI design, screen functionality structuring, CSS animations, API integration, state management setup
- Duration: 2023.03-2023.07 (Approx. more than 5 months)
- Tech Stack (DaouSync Web): React.js, Recoil, Storybook, React-query, Styled Component, etc.
- Tech Stack (DaouSync Desktop): Electron.js, Svelte, RabbitMQ, MacOS native APIs, Sqlite3 (in progress)
- URL: <https://www.daousync.com/> (still in progress)
